

# TRADITIONAL SPORTSMAN DIVISION

The following is simply a brief outline of this division. For in depth info see the division rules found within the TECH INFO tab on the HOME page.

Open to any race teams, novice or skilled.  
Chassis and body is Northeast Modified open wheel style cars.  
Engine type is GM 602 Sealed Crate engine only.

Rules guidelines are 2016 DIRTcar Sportsman Rules. With the exception, anything listed in the Exclusive to Can Am Rules. These exceptions can be found within the TECH INFO tab on the HOME page.

With this division all cars having the same factory sealed 602 engines, the same tires and sizes in only the allowed positions, and principally the same shocks. This means, being all the cars are for the most part fairly equal. Therefore, the crew that maintains the most efficient setup, along with a capable driver will make the most noticeable difference.
